About ME

Get To Know Me

"I'm **Shafqat Hayat**, a UI/UX designer driven by the challenge of turning complex ideas into simple, intuitive experiences.
I focus on clean visuals and thoughtful interactions, blending creativity with usability to make every click feel natural.
My process starts with understanding users—their goals, habits, and pain points—so each design choice has purpose and impact."

"I work primarily in Figma and Webflow, creating everything from wireframes and prototypes to polished, responsive interfaces.
Whether it's a personal project or a client brief, I aim to craft designs that look beautiful, solve real problems, and leave a lasting impression.
For me, great design isn't just about style—it's about making digital products that people genuinely enjoy using."
